NEWS AND VIEWS . . .

And What Have You

By BOB CRAIG

Attorney General Waggoner Carr gave testimony before the House Interim Committee on Criminal Law Revision this past week and we feel that part of his testimony should be brought to the attention of the citizens of Texas.

Carr Opened his remarks with the statement that, "Crime in our State has reached emergency proportions. In my judgement, finding a means to curb the shocking and ever increasing rate of crime is the most important job Texans face in the months and years ahead.

"Last year the number of major offenses increased 6,423 over the previous year. . . 4 times the increase of our population during the same period of time."

Carr told the committee that, "I will speak bluntly to you. . . it is time we became tough on the lawless element of our society, and quit coddling them. We must begin emphasizing the rights of the law-abiding citizen instead of over-emphasizing the rights of the criminal."

In regard to the Penal Code, he recommended that a complete and thorough study be made of the minimum punishments presently provided.

Carr said, "Juries are often inclined to give a sentence within close limits of the minimum punishment set out. They serve as a guideline and indicate to the jury how the legislature and people in government view a particular offense."

To illustrate this point Carr gave several examples to the committee such as:

"A mother and her small daughter are walking through a park. A man jumps from the bushes with a gun in his hand. He attempts to rob the mother and in the process kills the daughter, when she becomes frightened and runs. Assuming a subsequent conviction of murder with malice, this man could receive as little as 2 years in the penitentiary. And he would be eligible for parole in 4 months.

. . . An elderly lady is returning home at night from seeing a movie. As she walks down the street a sadistic hoodlum slashes and carves her face to shreds with a knife, but with no intent to kill. . . the defendant, if convicted, could be fined as little as one dollar, and go free. The same punishment could be forthcoming to the sadist had he merely maliciously cut the skin of a pig.

"Still another example. Suppose some person fires a rifle through the window, without intending to kill or wound anyone, the bullet narrowly missing one of you. Under Article 1339, the sniper is guilty of only a misdemeanor and it is possible for him to receive nothing more than a five dollar fine.

"At the other extreme, anyone stealing a sheep, mule, hog, or goat may be confined not less than 2 nor more than 10 years. Or if a person steals a chicken or turkey, Article 1442b provides for confinement of not less than 1 nor more than 2 years or by a fine not to exceed \$200.

"Under Article 1426c an individual who steals edible meat, a slice of bacon or a hot dog, for example, can be confined for up to 10 years. Let a hotrodder going 80 mph thru a school zone, hitting and killing a school child can be given a maximum of only 3 years. The minimum punishment he might receive is a one dollar fine.

"I especially direct your attention to the need to provide for more severe punishment for crimes committed thru the use of firearms by one person or another.

"The answer to violence and murder does not lie in registration of firearms or restricting the right of good and honest citizens to possess firearms.

"It is the misuse of firearms that is our concern, and we must toughen the penalties where firearms are used by person against the other as a means of controlling their misuse.

"The punishment provided for murder with malice by our present law is death, life or any term of years not less than 2 years. This minimum punishment of 2 years is the lightest imposed by any of the 50 states for premeditated murder with the exception of Alaska.

"I am not proud of the fact that my state puts a cheaper price on life of innocent law-abiding citizens than do the other states of the Union. And I am sure

He said, "The Hamlin schools employ teachers in accordance to the average daily attendance. We are now on the border line to keep the number of teachers we have employed."

"Last year," he continued, "We lost a teacher by 5 students, which cost the school district \$4,300. The school board, administration and teachers will appreciate the cooperation of all parents in this very serious problem."

It is also the responsibility of the superintendent to enforce the Compulsory School Attendance Law.

Supt. Cook reminds the parents that they are responsible for having their children in school and there is a penalty on the parent if this is not done.

Mr. Cook states that if he finds children not in school, he will contact the parents, then if the children are not enrolled in school he will notify the County Judge.

MAC'S SUPER MARKET

By Mrs. R. M. Babb
My, but it is nice and cool this morning, not much rain as yet, but I understand we can do without rain for a while.
I have been spending most of my time in a Revival over in Jones County so I am short on news. I do wish people would call me when they know of anything that would be of interest to our readers.
Bro. and Mrs. Leverett had visiting in their home last weekend his father and mother from Kingsland. This past weekend the Leverett's drove to Red River, N. Mex. for a few days rest before Bro. Ken starts teaching school in Hamlin.

Mrs. Ella Scott is still improving and has been moved to Holiday Lodge for a few weeks until she gains strength enough to care for herself. Drop her a card. She would love to hear from her friends.
Mr. Guy Cresswell of Mesa, Arizona visited in the Guy Mauldin home recently, and all of Guy's Mother's family had a Reunion in Sweetwater Park on Sunday. Every one had a nice time.

Mrs. W. B. Brown's grandchildren, Ricki, Jackie and Shelia spent Sunday night and Monday with her.

Rev. Billy Burke of Wichita Falls spent a week in our home while he did the preaching for the Revival at the Fairview Church east of Hamlin. We enjoyed having him very much.

Mrs. J. J. Self is home for a few days, but isn't sure just

how things will work out. The doctor says she can't stay alone, but she is able to be up and get around.

Mrs. Carra Perkins attended the Taylor Reunion in Rotan on Sunday at her sister's home.

The Kenneth Mauldins of Breckenridge visited her over the weekend, and I understand they are looking for a house to rent until they can build one.

Mr. and Mrs. J. T. Yates of Monahans are visiting in the Robert Reed home.

Rev. Terry Sutton of Hamlin supplied for Bro. Leverett on Sunday night and the reports I hear are that he is a good preacher and every one enjoyed the services very much.

Mrs. Gladys Williams has returned after spending several days in her daughters home while she was in the hospital. She reports Eva Jean is doing better.

The Junior Faye Dozier family of Anson spent Sunday afternoon and evening with his parents, of course they enjoyed the grandchildren being in their home.

Some time when you don't have anything to do just sit down and count the Senior Citizens in our community and see if there isn't home small thing that you can do to make their days not quite so lonely. After all we will reach their age some day.

Mr. and Mrs. Asencio Fernandez of Stamford are parents of a daughter, Elutera, born Aug. 13 at 1:09 p.m.

PORTRAIT of a PIONEER

Every generation of Americans from Plymouth Rock to the Klondike, has played a part in the nation's progress.

But long before the final chapter is written, the rural electric pioneer has earned an imposing place in the history of rural progress.

The member-owned MIDWEST ELECTRIC COOPERATIVE, by electrifying remote rural areas, has opened a new frontier for agriculture, for industry, for rural development and for rural people.

Theirs is a dramatic story of cooperative achievement that blazed a new trail and is Helping Texas Grow.

Hamlin Gins are fully prepared to handle an enormous crop of cotton. For several weeks they have been busy building and repairing, putting in new appliances and in every way placing our gin facilities in the front rank and among the best in the state. First Bale of Cotton was brought in by V. Madden of McCaulley. The lint weighted 502 lbs. and was bought by W. M. Green and W. A. Nobles at 15 cents lb., the seed brought \$40.00 and this plus a bonus offered by the businessmen made the bale worth \$123.67 to Madden.

"The graduate study awards for the coming year represent the largest number given by TCU," Dr. Sandy A. Wall, associate dean of the Graduate School, announced. "For 1965-66, a total of 263 students received \$433,266 in financial aid with funds available by the University and such sources as National Aeronautics and Space Agency, National Defense Education Act, National Science Foundation and research grants.

Emergency Gunsight — Now and then even the best of the hunters will accidentally knock off a rear gunsight. This needn't be a catastrophe if you have an old fishing rod handy. Just take off the guide and tape it in position on your gun.

Bore Cleaner — A handy bore cleaner to carry with you can be toted in any small pocket. Take a 4 or 5 foot length of heavy monofilament fishing line, make a knotted loop at one end, insert a rag in the loop and draw tight. A smaller, similar loop at the other end makes a good finger grip.

Mommie ... They want me to come to church."

Yes, Mommie, they do want her in church, for in the church, they have a place for all ages. No child is too young to learn. This also provides you an opportunity to worship and give undivided attention to church services.

"Train up a child in the way he should go: and when he is old, he will not depart from it."

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Teenage Stage to Be Highlight At State Fair in Dallas in Oct.

The big beat will come to the big fair October 8 through 23 in Dallas!

A Teenage Stage will be the focal point in the Varied Industries Building during the 1966 State Fair of Texas, which will have as its theme "Exposition of Young America."

In a combined production of Melody Shops of Dallas and the State Fair of Texas, the Teenage Stage will jump with the rock'n roll beat of dozens of musical combos during the 16-day run of the fair.

Musical groups will play 30-minute programs, rotating throughout the day until the fair closes at night. Each day, a dozen different combos — big ones, middle-sized ones and little ones, professional filled with music.

Exhibits in the Varied Industries Building will help to carry out the "Exposition of Young America" theme with everything from jazz records to job recruiting and from musical instruments to motor bikes. Young models

in modern fashions also will be spotlighted on the Teenage Stage.

And throughout the entire 1966 State Fair, entertainment and exhibits will reflect the interest of youth. In other musical attractions, the big Circus, Cotton Bowl spectaculars, livestock, the Midway and many special events, there will be many things to see and do — all designed for the young at heart!

Bus Routes Listed

The bus routes will be the same as last year, at the same time with the following drivers: Bus 12 Hilton, True-live-Boen; Bus 13 Gravel Pit, L. J. Starr; Bus 15 Celotex, Reusch-Johnson; Bus 16 Wise Chapel, Wayne Hodnett; Bus 17 Neinda, Allen-Tuder; Bus 20 Tuxedo, Gus Young. All bus children will ride one of the above buses. Buses will run at the regular time on Aug. 29.

Austin — Never has the Texas Legislature had money problems like those it will face in 1967.

Although the fact has been little publicized, state agencies are requesting an unprecedented \$1,200,000,000 in appropriations from the general revenue fund during the next biennium. This figure does not include activities financed by extensive special fund revenues and federal aid. Neither does it allow for the \$120,000,000 pay raise sought by school teachers.

By way of comparison, present general revenue appropriations add up to \$623,900,000, so the agencies are seeking almost twice as much as

they now are getting from tax sources controlled by the Legislature.

Sharp pruning is inevitable before official budget proposals are submitted to lawmakers by Gov. John Connally and the Legislative Budget Board. Making the task more difficult is the fact that the bulk of requested increases would go to such worthy purposes as:

Improved education, new community action programs for mental health and mental retardation, tuberculosis control, Medicare implementation, park improvements, a \$50,000,000 mental hospital and special school building program, water facilities and pollution control, new prison buildings and a pay raise for state employees. Financial authorities estimate state taxes would have to be raised \$400,000,000 to meet the new spending demands.

Most of the demands, of course, will not be met. But high-ranking officials, including House Speaker Ben Barnes, see a tax bill in the magnitude of \$200,000,000 shaping.

Although most forecasters are predicting that a sales hike of one per cent is inevitable, look for a "surprise" revenue bill with top-level backing.

Connally Backs Sentence — Governor Connally, returning to this capital city while it still was numbed with shock and grief over the senseless sniper slaying of 13 at The University of Texas, suggested a new state law ordering mandatory life prison sentences for insane killers.

Connally said he is considering a recommendation for for non-paroleable life sentence because too many criminals escape extended punishment on the pleas of insanity.

The governor, who cut short a South American tour after the August 1 UT tower murders, also directed the State Department of Public Safety to gather all facts on sniper Charles J. Whitman, an ex-Marine and honor student. He further directed a study of Whitman's brain by a conference of medical experts at M. D. Anderson Hospital and Tumor Institute at Houston.

Connally said he does not believe the August 1 tragedies, which "could have occurred in any city of the world," will reflect on Texas or Austin.

Lt. Gov. Preston Smith promptly directed the Texas Legislative Council to study the feasibility of enacting mandatory life imprisonment provisions for accused killers pleading insanity.

Appointments Announced — Gov. John Connally has named former Atty. Gen. John Ben Shepperd of Odessa as chairman of the new State Arts Commission. He selected as additional members Tom Lea of El Paso, Ralph McCullough of Houston, Paul N. Howell of San Antonio, Edward L. Melih of Amarillo and Dewey C. Bradford of Austin.

Connally picked Tom McCrummen Jr. of Austin to succeed Maurice R. Bullock of Fort Stockton on the State Securities Board.

Robert A. Westbrook of Elgin was named to the Governor's Committee on Aging and Robert W. Olson of Dallas to the State Board of Registration for Professional Engineers.

Vernon McDaniel of Austin, Henry H. Dewar of San Antonio, and State Sen. Bill Moore of Bryan were appointed to the Southern Regional Education Board of Control.

Stanley Banks Sr. of San Antonio and Walter Long of Austin were reappointed to the State Library and Historical Commission.

Gilbert L. Herrera of Corpus Christi is the new director of Operation SER, a project to help Latin American citizens find and train for jobs.

Courts Speak — State Supreme Court upheld the attorney general in refusing to approve \$4,700,000 in the Brazos River Authority revenue bond issue.

Supreme Court justices, holding in favor of a Hopkins County widow's contest of an insurance policy cancellation on her late husband, disagreed over seriousness of agina pectoris heart disease. Majority concluded one who has it can still be considered in reasonably good health.

City of Dallas was entitled to a temporary injunction to block showing of movie "Viva Maria," the high court said.

Attorney General Rules — Texas must go on daylight saving time next April unless the Legislature specifically moves to exempt the state from the new federal law, Atty. Gen. Waggoner Carr ruled.

In other opinions, Carr held that:

Corporations providing radio-telephone service are subject to gross receipts tax.

A county may employ a justice of the peace to interview landowners in connection with acquisition of road right-of-way.

Land used by Radio Church of God for religious worship and that properly used in the interest of Ambassador College and the Imperial School, both Upshur County, are exempt from property taxes.

Harrison County's game law letting November 15-30 as hunting season for buck deer is in effect.

Water Rights Commission Decides — Texas Water Rights Commission held feasible the 11.5 mile, \$10,900,000 La Marque seawall in the extension of the Texas City - Jones Bay area.

Commission later gave Texarkana exclusive authority to contract for 120,000-acre-feet of water from Lake Texarkana. Water Development Board was given authority to participate in negotiations between city and U. S. Corps of Engineers. Water becomes available by raising lake gates.

SHORT SNORTS

Forty-four cities have filed applications for aid with Texas Aeronautics Commission on airport projects which would cost a total of \$3,000,000.

Texas 65 Health Insurance Association paid claims in excess of \$10,000,000 during its 31 months of operation before being replaced by Medicare on July 1.

Hearing on a proposal to discontinue passenger train service between El Paso and Fort Worth have been rescheduled for September 12 in Fort Worth, September 14 in Big Spring and September 16 in El Paso.

First official Texas trade mission will go to Australia and New Zealand in August of 1967, Governor Connally announced.

Texas building for June and May were 17 per cent and 13 per cent, respectively, below the same months in 1965. First half of '66 building was 12 per cent higher than the first half of '65, but lower than the record levels of the last half of 1965.

Quanah Paper Awarded WTCC Services Award

San Angelo, The annual West Texas Chamber of Commerce Community Service Award was presented to the Quanah Tribune Chief here Saturday morning at the West Texas Press Association meeting.

The Award was announced at the annual breakfast, sponsored by the West Texas Chamber. Making the presentation to Mrs. Carroll Koch, publisher of the Quanah paper, was R. W. Hardy of Abilene, vice president of the West Texas Chamber of Commerce and president of West Texas Utilities Company. Also present were John Ben Shepperd of Odessa, president of the WTCC, and Jack G. Springer of Abilene, executive vice president.

The Tribune-Chief was honored because of its outstanding work in a number of community service projects, among them an intensive effort to get a mesquite and brush control and eradication program underway in Hardeman County. It resulted in a field day, attended by Secretary of Agriculture Freeman and other top national and state agricultural officials, and a great deal of positive work in brush control since then.

The Quanah newspaper, published by Mrs. Koch, assisted by editor-manager Ed M. Eakin, has also been out front in a number of other community projects in its area, including the promotion of a water festival and securing a \$900,000 county hospital. It also played a key role in

the location of Spartan Industries in Quanah, an industrial plant employing 200 persons.

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 8, 1966. HOUSE JOINT RESOLUTION NO. 48 proposing an Amendment to Article IX of the Constitution of the State of Texas, providing the method and manner for dissolution of hospital districts created under Article IX of the Constitution.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 9, Article IX of the Constitution of the State of Texas be amended to read as follows:

Section 9. The Legislature may by law provide for the creation, establishment, maintenance and operation of hospital districts composed of one or more counties or all or any part of one or more counties with power to issue bonds for the purchase, construction, acquisition, repair or renovation of buildings and improvements and equipping same, for hospital purposes; providing for the transfer to the hospital district of the title to any land, buildings, improvements and equipment located wholly within the district which may be jointly or separately owned by any city, town or county, providing that any district so created shall assume full responsibility for providing medical and hospital care for its needy inhabitants and assume the outstanding indebtedness incurred by cities, towns and counties for hospital purposes prior to the creation of the district, if same are located wholly within its boundaries, and a pro rata portion of such indebtedness based upon the then last approved tax assessment rolls of the included cities, towns and counties if less than all

the territory thereof is included within the district boundaries; providing that after its creation no other municipality or political subdivision shall have the power to levy taxes or issue bonds or other obligations for hospital purposes or for providing medical care within the boundaries of the district; providing for the levy of annual taxes at a rate not to exceed seventy-five cents (75c) on the One Hundred Dollar valuation of all taxable property within such district for the purpose of meeting the requirements of the district's bonds, the indebtedness assumed by it and its maintenance and operating expenses, providing that such district shall not be created or then only after thirty (30) days' public notice to the district affected, and in no event may the Legislature provide for a district to be created without the affirmative vote of a majority of the taxpaying voters in the district concerned.

Provided, however, that no district shall be created except by act of the Legislature and then only after thirty (30) days' public notice to the district affected, and in no event may the Legislature provide for a district to be created without the affirmative vote of a majority of the taxpaying voters in the district concerned.

The Legislature may also provide for the dissolution of hospital districts provided that a process is afforded by statute for:

(1) determining the desire of a majority of the qualified voters within the district to dissolve it;

(2) disposing of or transferring the assets, if any, of the district; and

(3) satisfying the debts and bond obligations, if any, of the district, in such manner as to protect the interest of the citizens within the district, including their collective property rights in the assets and property of the district, provided, however, that any grant from federal funds, however dispensed, shall be considered an obligation to be repaid in satisfaction and provided that no election to dissolve shall be held more often than once each year. In such connection, the statute shall provide against disposal or transfer of the assets of the district except for due compensation unless such assets are transferred to another governmental agency, such as a county, embracing such district and using such transferred assets in such a way as to benefit citizens formerly within the district.

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on the first Tuesday after the first Monday in November, 1966, at which election all ballots shall have printed thereon the following:

"FOR the constitutional amendment providing the method and manner for dissolution of hospital districts."

"AGAINST the constitutional amendment providing the method and manner for dissolution of hospital districts."

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for the election and this amendment shall be published in the manner and for the length of time as required by the Constitution and laws of this State.

Proposed CONSTITUTIONAL AMENDMENT NUMBER FIFTEEN ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 8, 1966. SENATE JOINT RESOLUTION NO. 33 proposing an Amendment to Section 6, Article XVI, Constitution of the State of Texas, to authorize state participation in programs financed with funds from private or federal sources and

conducted by local level or other private, nonsectarian associations, groups, and nonprofit organizations for establishing and equipping facilities for assisting the blind, crippled, or otherwise physically or mentally handicapped in becoming gainfully employed, for their rehabilitation or restoration, or for providing other services essential for the better care and treatment of the handicapped.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Article 1. That Section 6, Article XVI, Constitution of the State of Texas, be amended to read as follows:

"Section 6. (a) No appropriation for private or individual purposes shall be made, unless authorized by this Constitution. A regular statement, under oath, and an account of the receipts and expenditures of all public money shall be published annually, in such manner as shall be prescribed by law.

"(b) State agencies charged with the responsibility of providing services to those who are blind, crippled, or otherwise physically or mentally handicapped may accept money from private or federal sources, designated by the private or federal source as money to be used in and establishing and equipping facilities for assisting those who are blind, crippled, or otherwise physically or mentally handicapped in becoming gainfully employed, in rehabilitation and restoring the handicapped."

capped, and in providing other services determined by the state agency to be essential for the better care and treatment of the handicapped. Money accepted under this subsection is state money. State agencies may spend money accepted under this subsection, and no other money, for specific programs and projects to be conducted by local level or other private, nonsectarian associations, groups, and nonprofit organizations, in establishing and equipping facilities for assisting those who are blind, crippled, or otherwise physically or mentally handicapped in becoming gainfully employed, in rehabilitation and restoring the handicapped, and in providing other services determined by the state agency to be essential for the better care or treatment of the handicapped.

"The state agencies may deposit money accepted under this subsection either in the state treasury or in other secure depositories. The money may not be expended for any purpose other than the purpose for which it was given. Notwithstanding any other provision of this Constitution, the state agencies may expend money accepted under this subsection without the necessity of an appropriation, unless the Legislature, by law, requires that the money be expended only on appropriation. The Legislature may prohibit state agencies from accepting money under this subsection or may regulate the amount of money accepted, the way the acceptance and expenditure of the money is administered, and the purposes for which the state agencies may expend the money. Money accepted under this subsection for a purpose prohibited by the Legislature shall be returned to the entity that gave the money.

This subsection does not prohibit state agencies au-

thorized to render services to the handicapped from contracting with privately-owned or local facilities for necessary and essential services, subject to such conditions, standards, and procedures as may be prescribed by law."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified voters of this state at an election to be held on the first Tuesday after the first Monday in November, 1966, at which election all ballots shall have printed on them the following:

"FOR the Constitutional Amendment authorizing assistance to the blind, crippled, or otherwise physically or mentally handicapped, in the form of grants of public funds obtained from private or federal sources only, to local level or other private, nonsectarian associations, groups, and nonprofit organizations for establishing and equipping facilities to assist the handicapped in becoming gainfully employed, for their rehabilitation or restoration, or for providing other services essential for the better care and treatment of the handicapped."

"AGAINST the Constitutional Amendment authorizing assistance to the blind, crippled, or otherwise physically or mentally handicapped, in the form of grants of public funds obtained from private or federal sources only, to local level or other private, nonsectarian associations, groups, and nonprofit organizations for establishing and equipping facilities to assist the handicapped in becoming gainfully employed, for their rehabilitation or restoration, or for providing other services essential for the better care and treatment of the handicapped."

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for the election and this Amendment shall be published in the manner and for the length of time as required by the Constitution and laws of this state.

FAIRVIEW NEWS...

By Mrs. Elmer Joiner
Another Monday morning, another cool front has moved through, making the weather very pleasant for man and beast. No rain has fallen the past week, but the temperatures have not risen too high, making for a rather pleasing week as far as weather has been concerned.

We stated last week that cotton was looking so well and prospects so good, well, something had to happen. As so often happens in some areas of our county, the root rot has struck the cotton and a great quantity of it is dying. Some land does not kill cotton, but

in driving through the farming district between here and Stamford, we saw field after field with so much dead cotton and it has happened so suddenly. This cuts down on the overall production in a field and can hurt a lot financially, and the worst part of it is that you can't do anything about it.

Not being very smart about such matters, couldn't say for sure what does make cotton die, but well remember when I was a child and cotton was picked, not pulled, and hands would not pick the dead cotton, so it was the children's job to pick the dead spots and oh,

how we did hate it! Changing times and machinery have just about done away with all of those disagreeable tasks that children used to have, including the down row behind the maize wagon, remember?

As all good things must come to an end, our ten day revival did come to an end Sunday night. The visiting preacher had to leave Friday night after church services to go to his own church for the weekend, but all those that heard his series of messages will not soon forget him. He is really on fire for the Lord, and if we were not revived it certainly was not his fault. Our pastor finished out the week and we always enjoy hearing him. The singing under

Milton Crow Tells Of Hot Weather In Scotland—83 High

FTM2 Milton Crow, now in Scotland on the Sub Tender USS Simon Lake anchored at Holy Loch (Dunoon) on the Firth of Clyde, has written his parents, Mr. and Mrs. F. M. Crow, that the day he arrived there the temperature reached 83 degrees, the hottest day in seven years.

He said that factories are not air conditioned and had to close because of the extremely hot temperature. In Glasgow, the weatherman had predicted the mercury would reach 75 degrees.

Another Hamlin serviceman, Billy Acklin, who is assigned to a submarine in that vicinity, is on patrol and Crow hopes to see him when he anchors.

Role In Drama

Chris Head, son of Mr. and Mrs. Dudley Head, 18 S. W. Avenue C, had a role in the drama production "Engaged" presented in the Lubbock Christian College little theater August 4 and 5.

Head played the part of Major McGillicuddy, a rejected suitor to the heroine in the light comedy.

A 1966 graduate of Hamlin High School, Head is an education major at LCC.

A. E. Hewitt, and Linda Goodwin at the piano, was wonderful and we do thank all of the visitors that came and helped out in our singing. We know we had some good singers in attendance for we heard them. Usually we do not have enough to make our singing sound very good, so it was wonderful to hear our old church ring with good singing again.

We cannot name all of our visitors we had through the week, but would like to recognize some of those that came several times. Mr. and Mrs. J. D. King did spend most of the week and attended, also his brother, Mr. and Mrs. A. N. King, from Hamlin, were faithful attenders. Mrs. A. N. King will be remembered as the former Bessie Hayes, who grew up in our community. We had some Sylvester folks with us, Tuesday night Mrs. W. B. Brown and Mrs. May Hunt, then Friday night their pastor, and our former pastor, Rev. and Mrs. Kenneth Leverett and the little ones, were present. We don't want to forget our dear friends that used to be with us in the years gone by, that came several times, Mmes. Jenkins, Herbst, Vaughn and Fletcher. Lots of visitors came once from the Hamlin church and of course was good to have "Chick" with us all week, coming with her husband, A. E. Hewitt, who led the singing.

We want to give special recognition to Mrs. Alma Holmes, who at the age of 82 and with a frail little body, did manage to make the biggest part of the services. Mrs. Henry, who isn't young any more, managed to make every service.

Visitors of the Fred Rosenbaums from Tuesday until Thursday, were Mr. Rosenbaum's niece, Mr. and Mrs. W. A. Reese, Gerald and Douglas, of Santa Barbara, Calif.

Friday being the last day Rev. Burke was present, the preachers took lunch with Mrs. Rosenbaum. Mr. and Mrs. Jesse Hagins, from Girard, came to visit with Rev. Burke arriving too late for church, so they also ate lunch with the Rosenbaums, then went home with the Babbs, to visit with them and Bro. Billy They are former members of Rev. Babb's when he pastored at Girard and also dear and special friends of Rev. Burke.

Mr. and Mrs. Marvin Johnson, Bruce and Barry, spent from Friday until Saturday with their parents, the M. S. Johnsons and Winson Grays, coming to church Sunday morning.

Visitors of the Flavil Holmes and "Granny" Holmes, Friday, were Mr. and Mrs. Clinton Holmes and children, of Plainview.

We are sorry to report that Mrs. Henry's brother, Mr. J. E. Boyd, of Snyder, is very seriously ill in the Snyder Hospital, after having been to several different hospitals. It seems that the time has come that nothing can be done for him. Our sympathy goes to the Henrys.

Mr. and Mrs. Elmer Joiner went to Stamford Sunday afternoon, and visited with the Jimmy Joiners family.

As has happened several times the past few years, a lost preacher showed up at our church Sunday morning. This one was looking for the Plainview Baptist Church and since this church is somewhere between Stamford and Haskell, we are just wondering if he found it in time to preach. One preacher boy came once and was sitting waiting for church to start, when our pastor came in and introduced himself, so he found he was in the wrong place, and he had to a hurry to fill his pulpit, won't embarrass him by saying where since he was called to that church.

County Offices Not Planning On Closing Labor Day

Labor Day will not be a holiday for the Jones County courthouse, it was decided by members of the commissioners court at its August meeting.

However, some offices of the building may not open. Texas courts have held that the elected official has the final say as to whether or not he shall take holidays.

Grand jury for the September term of district court will not be called in until Tuesday, the day after Labor Day.

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 8, 1966.

HOUSE JOINT RESOLUTION NO. 24 proposing an amendment to Article VI of the Constitution of the State of Texas by adding a new Section thereto, Section 2a, to provide for voting on electors for President and Vice President, and on all state-wide offices, questions or propositions by persons qualified to vote in this State except for residence requirements, and to provide for voting on electors for President and Vice President by otherwise qualified United States citizens who have moved into or out of the State preceding a presidential election.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. Article VI of the Constitution of the State of Texas is amended by adding a new Section thereto, Section 2a, to read:

"Section 2a. (a) Notwithstanding any other provision of this Constitution, the Legislature may enact laws and provide a method of registration, including the time of such registration, permitting any person who is qualified to vote in this State except for the residence requirements within a county or district, as set forth in Section 2 of this Article, to vote for (1) electors for President and Vice President of the United States and (2) all offices, questions

or propositions to be voted on by all electors throughout this State.

"(b) Notwithstanding any other provision of this Constitution, the Legislature may enact laws and provide for a method of registration, including the time for such registration, permitting any person (1) who is qualified to vote in this State except for the residence requirements of Section 2 of this Article, and (2) who shall have resided anywhere within this State at least thirty (30) days next preceding a General Election in a presidential election year, and (3) who shall have been a qualified elector in another state immediately prior to his removal to this State or would have been eligible to vote in such other state had he remained there until such election, to vote for electors for President and Vice President of the United States in that election.

"(c) Notwithstanding any other provision of this Constitution, the Legislature may enact laws and provide for a method of registration, including the time for such registration, permitting absentee voting for electors for President and Vice President of the United States in this State by former residents of this State (1) who have removed to another state, and (2) who meet all qualifications, except residence requirements, for voting for electors for President and Vice President in this State at the time of the election, but the privileges of suffrage so granted shall be only for

such period of time as would permit a former resident of this State to meet the residence requirements for voting in his new state of residence, and in no case for more than twenty-four (24) months."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on the first Tuesday after the first Monday in November, 1966, at which election all ballots shall have printed thereon the following:

"FOR the Constitutional Amendment permitting persons qualified to vote in this State except for the residence requirements in a county or district to vote for President and Vice Presidential Electors and for all state-wide offices, questions or propositions, and permitting citizens of the United States recently arrived or departed from the State to vote for Presidential and Vice Presidential Electors."

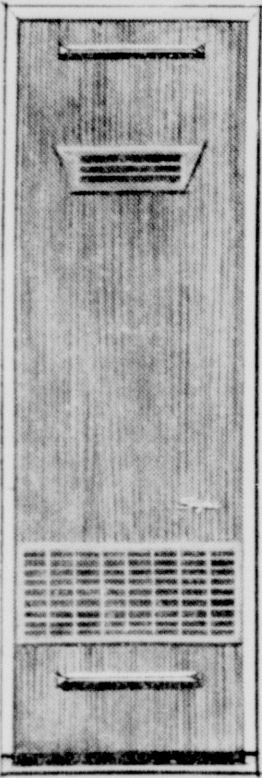

"AGAINST the Constitutional Amendment permitting persons qualified to vote in this State except for the residence requirements in a county or district to vote for President and Vice Presidential Electors and for all state-wide offices, questions or propositions, and permitting citizens of the United States recently arrived or departed from the State to vote for Presidential and Vice Presidential Electors."

Sec. 3. The Governor of Texas shall issue the necessary proclamation for the election and this Amendment shall be published in the manner and for the length of time as required by the Constitution and laws of this State.

Proposed CONSTITUTIONAL AMENDMENT NUMBER SEVEN ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 8, 1966.

HOUSE JOINT RESOLUTION NO. 13 proposing an Amendment to Sections 2 and 4 of Article VI of the Constitution of the State of Texas as so as to repeal the provision making payment of the poll tax a requirement for voting and so as to authorize the Legislature to provide for the registration of all voters.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Section 2 of Article VI of the Constitution of the State of Texas be amended, effective February 1, 1968, by deleting the following language: "and provided further, that any voter who is subject to pay a poll tax under the laws of the State of Texas shall have paid said tax before offering to vote at any election in this State and hold a receipt showing that said poll tax was paid before the first day of February next preceding such election. Or if said voter shall have lost or misplaced said receipt he may obtain the same upon making affidavit before any officer authorized to administer oaths that such receipt has been lost. Such affidavit shall be in writing and left with the judge of the election. The husband may pay the poll tax of his wife and receive the receipt therefor. In like manner, the wife may pay the poll tax of her husband and receive the receipt therefor."

provided, however, that before offering to vote at an election a voter shall have registered annually, but such requirement for registration shall not be considered a qualification of an elector within the meaning of the term "qualified elector" as used in any other Article of this Constitution in respect to any matter except qualification and eligibility to vote at an election. Any legislation enacted in anticipation of the adoption of this Amendment shall not be invalid because of its anticipatory nature. The Legislature may authorize absentee voting. And this provision of the Constitution shall be self-enacting without the necessity of further legislation. Any member of the Armed Forces of the United States or component branches thereof; or in the military service of the United States, may vote only in the county in which he or she resided at the time of en-

tering such service so long as he or she is a member of the Armed Forces." Sec. 2. That Section 4 of Article VI of the Constitution of the State of Texas be amended by changing the word "may" to "shall" in the last clause thereof and by deleting the words "in all cities containing a population of ten thousand inhabitants or more."

The text of this Section, as so amended, is shown below, with the deleted language marked through by a broken line and with the new language underscored: "Section 4. In all elections by the people, the vote shall be by ballot, and the Legislature shall provide for the numbering of tickets and make such other regulations as may be necessary to detect and punish fraud and preserve the purity of the ballot box; and the Legislature may shall provide by law for the registration of all voters in all cities containing a population of ten thousand inhabitants or more."

Sec. 3. If any other Amendment to Sections 2 or 4 of Article VI of the Constitution of the State of Texas, being for a different purpose, is adopted at an earlier election or at the same election, the adoption of this Amendment shall not be construed as nullifying any change made by such other Amendment.

Sec. 4. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of the state at an election to be held on the first Tuesday after the first Monday in November, 1966, at which election all ballots shall have printed thereon the following:

"FOR repealing the poll tax as a requirement for voting."

"AGAINST repealing the poll tax as a requirement for voting."

Sec. 5. If the foregoing Amendment is adopted, the proclamation of the Governor declaring the adoption of the Amendment shall set forth the full text of the amended Sections, as amended herein and as amended by any other proposed Amendment which is submitted by the 59th Legislature and which has been duly adopted prior to such proclamation.

Sec. 6. The Governor of the State of Texas shall issue the necessary proclamation for the election and this Amendment shall be published in the manner and for the length of time as required by the Constitution and laws of this State.

And What Have You

By BOB CRAIG

Attorney General Waggoner Carr gave testimony before the House Interim Committee on Criminal Law Revision this past week and we feel that part of his testimony should be brought to the attention of the citizens of Texas.

Carr Opened his remarks with the statement that, "Crime in our State has reached emergency proportions. In my judgement, finding a means to curb the shocking and ever increasing rate of crime is the most important job Texans face in the months and years ahead.

"Last year the number of major offenses increased 6,423 over the previous year. . . 4 times the increase of our population during the same period of time."

Carr told the committee that, "I will speak bluntly to you. . . it is time we became tough on the lawless element of our society, and quit coddling them. We must begin emphasizing the rights of the law-abiding citizen instead of over-emphasizing the rights of the criminal."

In regard to the Penal Code, he recommended that a complete and thorough study be made of the minimum punishments presently provided.

Carr said, "Juries are often inclined to give a sentence within close limits of the minimum punishment set out. They serve as a guideline and indicate to the jury how the legislature and people in government view a particular offense."

To illustrate this point Carr gave several examples to the committee such as:

"A mother and her small daughter are walking through a park. A man jumps from the bushes with a gun in his hand. He attempts to rob the mother and in the process kills the daughter, when she becomes frightened and runs. Assuming a subsequent conviction of murder with malice, this man could receive as little as 2 years in the penitentiary. And he would be eligible for parole in 4 months.

. . . An elderly lady is returning home at night from seeing a movie. As she walks down the street a sadistic hoodlum slashes and carves her face to shreds with a knife, but with no intent to kill. . . the defendant, if convicted, could be fined as little as one dollar, and go free. The same punishment could be forthcoming to the sadist had he merely maliciously cut the skin of a pig.

"Still another example. Suppose some person fires a rifle through the window, without intending to kill or wound anyone, the bullet narrowly missing one of you. Under Article 1339, the sniper is guilty of only a misdemeanor and it is possible for him to receive nothing more than a five dollar fine.

"At the other extreme, anyone stealing a sheep, mule, hog, or goat may be confined not less than 2 nor more than 10 years. Or if a person steals a chicken or turkey, Article 1442b provides for confinement of not less than 1 nor more than 2 years or by a fine not to exceed \$200.

"Under Article 1426c an individual who steals edible meat, a slice of bacon or a hot dog, for example, can be confined for up to 10 years. Let a hotrodder going 80 mph thru a school zone, hitting and killing a school child can be given a maximum of only 3 years. The minimum punishment he might receive is a one dollar fine.

"I especially direct your attention to the need to provide for more severe punishment for crimes committed thru the use of firearms by one person or another.

"The answer to violence and murder does not lie in registration of firearms or restricting the right of good and honest citizens to possess firearms.

"It is the misuse of firearms that is our concern, and we must toughen the penalties where firearms are used by a person against the other as a means of controlling their misuse.

"The punishment provided for murder with malice by our present law is death, life or any term of years not less than 2 years. This minimum punishment of 2 years is the lightest imposed by any of the 50 states for premeditated murder with the exception of Alaska.

"I am not proud of the fact that my state puts a cheaper price on life of innocent law-abiding citizens than do the other states of the Union. And I am sure

School Building Progress Report Given by Cook

School Superintendent C. F. Cook gave a progress report on the new high school building this week. He expects it to be after Oct. 1 before bids will be let on the construction.

At the present time the school bonds are being printed. After this they must be signed by the trustees and approved by the Attorney General of Texas. Cook said that then the bonds will be advertised for sale and then the state department of education will be offered the bonds.

If the department is not interested in buying the bonds then the board will accept the lowest bid from the private bond buyers. After this is done bids can be let.

At the present time the architects are working on the floor plans, type of walls, chalk board, type of science equipment to be bought, storage in special departments, kind of floor to be used, color of paint in each room, arrangements for Homemaking and Ag. departments and other details.

Cook said that at this time he could not predict when actual construction will start on the building but he said everything is being done to get it underway as soon as possible and the board is spending much time in planning the building.

Fans to Get First Look at Pipers In Scrimmage Here Friday Night

Hamlin football fans will get their first pre-season look at the 1966 version of the Pipers here this Friday night when the Pipers scrimmage the Sweetwater Mustangs.

Coach Joe Youngblood said that while the school cannot charge admission to a scrimmage, there will be a barrel at the gate for those who wish to donate a bar of soap to the team.

The scrimmage will start at 7:30 with the two varsity teams each running 20 plays and then the two B Teams running 15 plays. The varsities will follow with 20 more plays and the B Teams 15.

The following Friday, Sept. 2, the Pipers will scrimmage Ballinger in Abilene.

While the Pipers are rated at the bottom of the District 5-AA standings, Coach Youngblood said this week that, "The boys know they have a big job ahead of them this year and are working hard to be ready."

The boys are in good physical shape and received only minor injuries during the first week of two-a-day workouts.

The 21 man varsity squad sports 10 lettermen back from last year to form the nucleus that Coach Youngblood will build from.

The major change in the lineup will see Larry McCoy, last year's all district defensive guard, move to the full-back spot.

The Pipers will be running from the "T" formation this year with a "Monster" defense.

new school year Supt. C. F. Cook reminds parents of their obligation to have their children in school regularly.

He said, "The Hamlin schools employ teachers in accordance to the average daily attendance. We are now on the border line to keep the number of teachers we have employed."

"Last year," he continued, "We lost a teacher by 5 students, which cost the school district \$4,300. The school board, administration and teachers will appreciate the cooperation of all parents in this very serious problem."

It is also the responsibility of the superintendent to enforce the Compulsory School Attendance Law.

Supt. Cook reminds the parents that they are responsible for having their children in school and there is a penalty on the parent if this is not done.

Mr. Cook states that if he finds children not in school, he will contact the parents, then if the children are not enrolled in school he will notify the County Judge.

School Lunches To Be Higher

Cost of the school lunches will be increased this year because of the lack of commodities from the U. S. Government and rising food costs.

The lunch rooms will be open Monday, Aug. 29, the first day of school.

The prices will be as follows: Primary, 35 cents; Elementary, 35 cents; junior high, 40 cents; and high school 45 cents.

Prices will be the same whether the tickets are purchased by the day, week or month.

Mr. and Mrs. Dickie Wallace, Mary and Richard, took a trip last weekend into the Hill Country of Texas. Among the interesting sights was a tour of Natural Bridge Caverns between New Braunfels and San Antonio.

The varsity lineup includes Paul Long and Bob Clifton, juniors, at quarterback; Joe Adams, Sammy Ferguson and Philip Simpson, juniors, at halfback and tailback; McCoy,

By Mrs. R. M. Babb
My, but it is nice and cool this morning, not much rain as yet, but I understand we can do without rain for a while.
I have been spending most of my time in a Revival over in Jones County so I am short on news. I do wish people would call me when they know of anything that would be of interest to our readers.
Bro. and Mrs. Leverett had visiting in their home last weekend his father and mother from Kingsland. This past weekend the Leveretts drove to Red River, N. Mex. for a few days rest before Bro. Ken starts teaching school in Hamlin.
Mrs. Ella Scott is still improving and has been moved to Holiday Lodge for a few weeks until she gains strength enough to care for herself. Drop her a card. She would love to hear from her friends.
Mr. Guy Creswell of Mesa, Arizona visited in the Guy Mauldin home recently, and all of Guy's Mother's family had a Reunion in Sweetwater Park on Sunday. Every one had a nice time.
Mrs. W. B. Brown's grandchildren, Ricki, Jackie and Shelia spent Sunday night and Monday with her.
Rev. Billy Burke of Wichita Falls spent a week in our home while he did the preaching for the Revival at the Fairview Church east of Hamlin. We enjoyed having him very much.
Mrs. J. J. Self is home for a few days, but isn't sure just how things will work out. The doctor says she can't stay alone, but she is able to be up and get around.
Mrs. Carra Perkins attended the Taylor Reunion in Rotan on Sunday at her sister's home.
The Kenneth Mauldins of Breckenridge visited her over the weekend, and I understand they are looking for a house to rent until they can build one.
Mr. and Mrs. J. T. Yates of Monahans are visiting in the Robert Reed home.
Rev. Terry Sutton of Hamlin supplied for Bro. Leverett on Sunday night and the reports I hear are that he is a good preacher and every one enjoyed the services very much.
Mrs. Gladys Williams has returned after spending several days in her daughters home while she was in the hospital. She reports Eva Jean is doing better.
The Junior Faye Dozier family of Anson spent Sunday afternoon and evening with his parents, of course they enjoyed the grandchildren being in their home.
Some time when you don't have anything to do just sit down and count the Senior Citizens in our community and see if there isn't home small thing that you can do to make their days not quite so lonely. After all we will reach their age some day.
Mr. and Mrs. Asencio Fernandez of Stamford are parents of a daughter, Elutera, born Aug. 13 at 1:09 p.m.

the loved ones of the 790 victims of murders last year feel the same.

"We must change the whole approach of our customary, thinking in assessing punishment for crimes committed against innocent people. Especially the crime where an innocent person is deprived of life itself.

"The fundamental change in approach to which I refer involves considering the right of a person to live, rather than solely considering the punishment from the viewpoint of the murderer." Carr closed out his remarks with the following, "The XIV Amendment to the Constitution of the United States guarantees equal protection of the laws to all persons, not merely to defendants in criminal prosecutions. "We have a duty to protect the accused certainly, but we also have a duty to millions of men and women and children to see that their rights to be secure in their persons or property, to enjoy the use of our streets and parks without fear of being robbed, raped, assaulted or murdered are also protected."

PORTRAIT of a PIONEER

Every generation of Americans from Plymouth Rock to the Klondike, has played a part in the nation's progress.

But long before the final chapter is written, the rural electric pioneer has earned an imposing place in the history of rural progress.

The member-owned MIDWEST ELECTRIC COOPERATIVE, by electrifying remote rural areas, has opened a new frontier for agriculture, for industry, for rural development and for rural people.

Theirs is a dramatic story of cooperative achievement that blazed a new trail and is Helping Texas Grow.

Hamlin Gins are fully prepared to handle an enormous crop of cotton. For several weeks they have been busy building and repairing, putting in new appliances and in every way placing our gin facilities in the front rank and among the best in the state. First Bale of Cotton was brought in by V. Madden of McCaulley. The lint weighted 502 lbs. and was bought by W. M. Green and W. A. Nobles at 15 cents lb., the seed brought \$40.00 and this plus a bonus offered by the businessmen made the bale worth \$123.67 to Madden.

Ruby Joyce (Redus) Harden, a graduate of Hamlin High is one of the graduate assistants and fellows who have been appointed for the academic year of 1966-67 at Texas Christian University.

"The graduate study awards for the coming year represent the largest number given by TCU," Dr. Sandy A. Wall, associate dean of the Graduate School, announced. "For 1965-66, a total of 263 students received \$433,266 in financial aid with funds available by the University and such sources as National Aeronautics and Space Agency, National Defense Education Act, National Science Foundation and research grants."

Emergency Gunsight — Now and then even the best of the hunters will accidentally knock off a rear gunsight. This needn't be a catastrophe if you have an old fishing rod handy. Just take off the guide and tape it in position on your gun.

Bore Cleaner — A handy bore cleaner to carry with you can be toted in any small pocket. Take a 4 or 5 foot length of heavy monofilament fishing line, make a knotted loop at one end, insert a rag in the loop and draw tight. A smaller, similar loop at the other end makes a good finger grip.

Mommie ... They want me to come to church."

Yes, Mommie, they do want her in church, for in the church, they have a place for all ages. No child is too young to learn. This also provides you an opportunity to worship and give undivided attention to church services.

"Train up a child in the way he should go; and when he is old, he will not depart from it."

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

NOTEBOOK—PATTERNS FOR PROGRESS

INDUSTRIAL FOUNDATIONS

... to finance industrial growth

Competition between states and cities to improve their competitive abilities to attract new payrolls has increased the forming of Industrial Foundations in Texas. Many industries want and need someone else to own the land, brick and mortar, keeping their money available for plant operations. Industrial Foundations indicate the interest and desire of a community for new industry. Local citizens who participate usually figure that they get a return on their money in a Foundation by having an additional payroll circulating in their community.

— PURPOSE — is to give a community a corporate entity to assist industry to create jobs within the community — can be an existing industry as well as a new one. Foundations usually assist industry that cannot or will not use normal commercial financial institutions.

— EXTENT OF ACTIVITIES — usually are to acquire and develop industrial property ... construct buildings for lease ... provide funds for training workers ... purchase machinery and equipment ... prepare promotional material and prospecting expenses and any other function that would give the community a competitive advantage for a new payroll.

— ORGANIZATION — is usually by a group of businessmen who are interested in the economic growth and development of their community. A local attorney should prepare the application for the charter and by-laws in order to conform to state laws and internal revenue service regulations. The local bankers' support is very helpful in forming an Industrial Foundation.

— TYPE — of Industrial Foundations vary — profit or non-profit — stock or contributions — the type a town needs depends upon the attitude and characteristics of the local people and its competitive position with other towns to attract new manufacturing payrolls. In most cases, Industrial Foundations are only used to assist industries where labor cost is a big factor in the operation, as the payroll provided is the important thing to the economy of the community.

Teenage Stage to Be Highlight At State Fair In Dallas In Oct.

The big beat will come to the big fair October 8 through 23 in Dallas!

A Teenage Stage will be the focal point in the Varied Industries Building during the 1966 State Fair of Texas, which will have as its theme "Exposition of Young America."

In a combined production of Melody Shops of Dallas and the State Fair of Texas, the Teenage Stage will jump with the rock'n roll beat of dozens of musical combos during the 16-day run of the fair.

Musical groups will play 30-minute programs, rotating throughout the day until the fair closes at night. Each day, a dozen different combos — big ones, middle-sized ones and little ones, professional filled with music.

Exhibits in the Varied Industries Building will help to carry out the "Exposition of Young America" theme, with everything from jazz records to job recruiting and from musical instruments to motor bikes. Young models

in modern fashions also will be spotlighted on the Teenage Stage.

And throughout the entire 1966 State Fair, entertainment and exhibits will reflect the interest of youth. In other musical attractions, the big Circus, Cotton Bowl spectaculars, livestock, the Midway and many special events, there will be many things to see and do — all designed for the young at heart!

Bus Routes Listed

The bus routes will be the same as last year, at the same time with the following drivers: Bus 12 Histon, True, live-Boen; Bus 13 Gravel Pit, I. J. Starr; Bus 15 Celotex, Reusch-Johnson; Bus 16 Wise Chapel, Wayne Hodnett; Bus 17 Neinda, Allen-Tudor; Bus 20 Tuxedo, Gus Young. All bus children will ride one of the above buses. Buses will run at the regular time on Aug. 29.

Austin — Never has the Texas Legislature had money problems like those it will face in 1967.

Although the fact has been little publicized, state agencies are requesting an unprecedented \$1,200,000,000 in appropriations from the general revenue fund during the next biennium. This figure does not include activities financed by extensive special fund revenues and federal aid.

Neither does it allow for the \$120,000,000 pay raise sought by school teachers.

By way of comparison, present general revenue appropriations add up to \$623,900,000, so the agencies are seeking almost twice as much as

they now are getting from tax sources controlled by the Legislature.

Sharp pruning is inevitable before official budget proposals are submitted to lawmakers by Gov. John Connally and the Legislative Budget Board. Making the task more difficult is the fact that the bulk of requested increases would go to such worthy purposes as:

Improved education, new community action programs for mental health and mental retardation, tuberculosis control, Medicare implementation, park improvements, a \$50,000,000 mental hospital and special school building program, water facilities and pollution control, new prison buildings and a pay raise for state employees. Financial authorities estimate state taxes would have to be raised \$400,000,000 to meet the new spending demands.

Most of the demands, of course, will not be met. But high-ranking officials, including House Speaker Ben Barnes, see a tax bill in the magnitude of \$300,000,000 shaping.

Although most forecasters are predicting that a sales hike of one per cent is inevitable, look for a "surprise" revenue bill with top-level backing.

Connally Backs Sentence — Governor Connally, returning to this capital city while it still was numbed with shock and grief over the senseless sniper slaying of 13 at the University of Texas, suggested a new state law ordering mandatory life prison sentences for insane killers.

Connally said he is considering a recommendation for non-parolable life sentence because too many criminals escape extended punishment on the pleas of insanity.

The governor, who cut short a South American tour after the August 1 UT tower murders, also directed the State Department of Public Safety to gather all facts on sniper Charles J. Whitman, an ex-Marine and honor student. He further directed a study of Whitman's brain by a conference of medical experts at M. D. Anderson Hospital and Tumor Institute at Houston.

Connally said he does not believe the August 1 tragedies, which "could have occurred in any city of the world," will reflect on Texas or Austin.

Lt. Gov. Preston Smith promptly directed the Texas Legislative Council to study the feasibility of enacting mandatory life imprisonment provisions for accused killers pleading insanity.

Appointments Announced — Gov. John Connally has named former Atty. Gen. John Ben Sheppard of Odessa as chairman of the new State Arts Commission. He selected as additional members Tom Lea of El Paso, Ralph McCullough of Houston, Paul N. Howell of San Antonio, Edward L. Melik of Amarillo and Dewey C. Bradford of Austin.

Connally picked Tom McCrummen Jr. of Austin to succeed Maurice R. Bullock of Fort Stockton on the State Securities Board.

Robert A. Westbrook of Elgin was named to the Governor's Committee on Aging and Robert W. Olson of Dallas to the State Board of Registration for Professional Engineers.

Vernon McDaniel of Austin, Henry H. Dewar of San Antonio, and State Sen. Bill Moore of Bryan were appointed to the Southern Regional Education Board of Control.

Stanley Banks Sr. of San Antonio and Walter Long of Austin were reappointed to the State Library and Historical Commission.

Gilbert L. Herrera of Corpus Christi is the new director of Operation SER, a project to help Latin American citizens find and train for jobs.

Courts Speak — State Supreme Court upheld the attorney general in refusing to approve \$4,700,000 in the Brazos River Authority revenue bond issue.

Supreme Court justices, holding in favor of a Hopkins County widow's contest of an insurance policy cancellation on her late husband, disagreed over seriousness of agita pectoris heart disease. Majority concluded one who has it can still be considered in reasonably good health.

City of Dallas was entitled to a temporary injunction to block showing of movie "Viva Maria," the high court said.

Attorney General Rules — Texas must go on daylight saving time next April unless the Legislature specifically moves to exempt the state from the new federal law, Atty. Gen. Waggoner Carr ruled.

In other opinions, Carr held that:

Corporations providing radio-telephone service are subject to gross receipts tax.

A county may employ a justice of the peace to interview landowners in connection with acquisition of road right-of-way.

Land used by Radio Church of God for religious worship and that properly used in the interest of Ambassador College and the Imperial School, both Upshur County, are exempt from property taxes.

Harrison County's game law letting November 15-30 as hunting season for buck deer is in effect.

Water Rights Commission Decides — Texas Water Rights Commission held feasible the 11.5 mile, \$10,900,000 La Marque seawall in the extension of the Texas City - Jones Bay area.

Commission later gave Texarkana exclusive authority to contract for 120,000-acre-feet of water from Lake Texarkana. Water Development Board was given authority to participate in negotiations between city and U. S. Corps of Engineers. Water becomes available by raising lake gates.

SHORT SNORTS

Forty-four cities have filed applications for aid with Texas Aeronautics Commission on airport projects which would cost a total of \$3,000,000.

Texas 65 Health Insurance Association paid claims in excess of \$10,000,000 during its 31 months of operation before being replaced by Medicare on July 1.

Hearing on a proposal to discontinue passenger train service between El Paso and Fort Worth have been rescheduled for September 12 in Fort Worth, September 14 in Big Spring and September 16 in El Paso.

First official Texas trade mission will go to Australia and New Zealand in August of 1967, Governor Connally announced.

Texas building for June and May were 17 per cent and 13 per cent, respectively, below '65 same months in '65. First half of '66 building was 12 per cent higher than the first half of '65, but lower than the record levels of the last half of 1965.

Quanah Paper Awarded WTCC Services Award

San Angelo, The annual West Texas Chamber of Commerce Community Service Award was presented to the Quanah Tribune Chief here Saturday morning at the West Texas Press Association meeting.

The Award was announced at the annual breakfast, sponsored by the West Texas Chamber. Making the presentation to Mrs. Carroll Koch, publisher of the Quanah paper, was R. W. Hardy of Abilene, vice president of the West Texas Chamber of Commerce and president of West Texas Utilities Company. Also present were John Ben Sheppard of Odessa, president of the WTCC, and Jack G. Springer of Abilene, executive vice president.

The Tribune-Chief was honored because of its outstanding work in a number of community service projects, among them an intensive effort to get a mesquite and brush control and eradication program underway in Hardeman County. It resulted in a field day, attended by Secretary of Agriculture Freeman and other top national and state agricultural officials, and a great deal of positive work in brush control since then.

The Quanah newspaper, publisher by Mrs. Koch, assisted by editor-manager Ed M. Eakin, has also been out front in a number of other community projects in its area, including the promotion of a water festival and securing a \$900,000 county hospital. It also played a key role in

the location of Spartan Industries in Quanah, an industrial plant employing 200 persons.

Proposed CONSTITUTIONAL AMENDMENT NUMBER TWELVE ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 8, 1966. HOUSE JOINT RESOLUTION NO. 48, proposing an amendment to Article IX of the Constitution of the State of Texas, providing the method and manner for dissolution of hospital districts created under Article IX of the Constitution.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 9, Article IX of the Constitution of the State of Texas, be amended to read as follows: "Section 9. The Legislature may by law provide for the creation, establishment, maintenance and operation of hospital districts composed of one or more counties or all or any part of one or more counties with power to issue bonds for the purchase, construction, acquisition, repair or renovation of buildings and improvements and equipping same, for hospital purposes; providing for the transfer to the hospital district of the title to any land, buildings, improvements and equipment located wholly within the district which may be jointly or separately owned by any city, town or county; providing that any district so created shall assume full responsibility for providing medical and hospital care for its needy inhabitants and assume the outstanding indebtedness incurred by cities, towns and counties for hospital purposes prior to the creation of the district, if same are located wholly within its boundaries, and a pro rata portion of such indebtedness based upon the then last approved tax assessment rolls of the included cities, towns and counties if less than all

the territory thereof is included within the district boundaries; providing that after its creation no other municipality or political subdivision shall have the power to levy taxes or issue bonds or other obligations for hospital purposes or for providing medical care within the boundaries of the district; providing for the levy of annual taxes at a rate not to exceed seventy-five cents (75c) on the One Hundred Dollar valuation of all taxable property within such district for the purpose of meeting the requirements of the district's bonds, the indebtedness assumed by it and its maintenance and operating expenses, providing that such district shall not be created or such tax authorized unless approved by a majority of the qualified property taxpayers electors thereof voting at an election called for the purpose; and providing further that the support and maintenance of the district's hospital system shall never become a charge against or obligation of the State of Texas nor shall any direct appropriation be made by the Legislature for the construction, maintenance or improvement of any of the facilities of such district.

Provided, however, that no district shall be created except by act of the Legislature and then only after thirty (30) days' public notice to the district affected, and in no event may the Legislature provide for a district to be created without the affirmative vote of a majority of the taxpayers voters in the district concerned.

The Legislature may also provide for the dissolution of hospital districts provided that a process is afforded by statute for:

(1) determining the desire of a majority of the qualified voters within the district to dissolve it;

(2) disposing of or transferring the assets, if any, of the district; and

(3) satisfying the debts and bond obligations, if any, of the district, in such manner as to protect the interest of the citizens within the district, including their collective property rights in the assets and property of the district, provided, however, that any grant from federal funds, however dispersed, shall be considered an obligation to be repaid in satisfaction and provided that no election to dissolve shall be held more often than once each year. In such connection, the statute shall provide against disposal or transfer of the assets of the district except for due compensation unless such assets are transferred to another governmental agency, such as a county, embracing such district and using such transferred assets in such a way as to benefit citizens formerly within the district.

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on the first Tuesday after the first Monday in November, 1966, at which election all ballots shall have printed thereon the following:

Proposed CONSTITUTIONAL AMENDMENT NUMBER FIFTEEN ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 8, 1966. SENATE JOINT RESOLUTION NO. 33, proposing an amendment to Section 6, Article XVI, Constitution of the State of Texas, to authorize state participation in programs financed with funds from private or federal sources and conducted by local level or other private, nonsectarian associations, groups, and nonprofit organizations for establishing and equipping facilities for assisting the blind, crippled, or otherwise physically or mentally handicapped in becoming gainfully employed, for their rehabilitation or restoration, or for providing other services essential for the better care and treatment of the handicapped.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 6, Article XVI, Constitution of the State of Texas, be amended to read as follows: "Section 6. (a) No appropriation for private or individual purposes shall be made, unless authorized by this Constitution. A regular statement, under oath, and an account of the receipt and expenditure of all public money shall be published annually in such manner as shall be prescribed by law.

"(b) State agencies charged with the responsibility of providing services to those who are blind, crippled, or otherwise physically or mentally handicapped may accept money from private or federal sources, designated by the private or federal source as money to be used in establishing and equipping facilities for assisting those who are blind, crippled, or otherwise physically or mentally handicapped in becoming gainfully employed, in rehabilitation and restoring the handi-

capped, and in providing other services determined by the state agency to be essential for the better care and treatment of the handicapped. Money accepted under this subsection is state money. State agencies may spend money accepted under this subsection, and no other money, for specific programs and projects to be conducted by local level or other private, nonsectarian associations, groups, and nonprofit organizations, in establishing and equipping facilities for assisting those who are blind, crippled, or otherwise physically or mentally handicapped in becoming gainfully employed, in rehabilitation and restoring the handicapped, and in providing other services determined by the state agency to be essential for the better care and treatment of the handicapped.

"The state agencies may deposit money accepted under this subsection either in the state treasury or in other secure depositories. The money may not be expended for any purpose other than the purpose for which it was given. Notwithstanding any other provision of this Constitution, the state agencies may expend money accepted under this subsection without the necessity of an appropriation, unless the Legislature, by law, requires that the money be expended only on appropriation. The Legislature may prohibit state agencies from accepting money under this subsection or may regulate the amount of money accepted, the way the acceptance and expenditure of the money is administered, and the purposes for which the state agencies may expend the money. Money accepted under this subsection for a purpose prohibited by the Legislature shall be returned to the entity that gave the money.

"This subsection does not prohibit state agencies au-

thorized to render services to the handicapped from contracting with privately-owned or local facilities for necessary and essential services, subject to such conditions, standards, and procedures as may be prescribed by law."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified voters of this State at an election to be held on the first Tuesday after the first Monday in November, 1966, at which election all ballots shall have printed on them the following:

"FOR the Constitutional Amendment authorizing assistance to the blind, crippled, or otherwise physically or mentally handicapped, in the form of grants of public funds obtained from private or federal sources only, to local level or other private, nonsectarian associations, groups, and nonprofit organizations for establishing and equipping facilities to assist the handicapped in becoming gainfully employed, for their rehabilitation or restoration, or for providing other services essential for the better care and treatment of the handicapped."

"AGAINST the Constitutional Amendment authorizing assistance to the blind, crippled, or otherwise physically or mentally handicapped, in the form of grants of public funds, obtained from private or federal sources only, to local level or other private, nonsectarian associations, groups, and nonprofit organizations for establishing and equipping facilities to assist the handicapped in becoming gainfully employed, for their rehabilitation or restoration, or for providing other services essential for the better care and treatment of the handicapped."

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for the election and this Amendment shall be published in the manner and for the length of time as required by the Constitution and laws of this state.

Southwestern Bell

By Mrs. Elmer Joiner
Another Monday morning, another cool front has moved through, making the weather very pleasant for man and beast. No rain has fallen the past week, but the temperatures have not risen too high, making for a rather pleasing week as far as weather has been concerned.

We stated last week that cotton was looking so well and prospects so good, well, something had to happen. As so often happens in some areas of our county, the root rot has struck the cotton and a great quantity of it is dying. Some land does not kill cotton, but

in driving through the farming district between here and Stamford, we saw field after field with so much dead cotton and it has happened so suddenly. This cuts down on the overall production in a field and can hurt a lot financially, and the worst part of it is that you can't do anything about it.

Not being very smart about such matters, couldn't say for sure what does make cotton die, but well remember when I was a child and cotton was picked, not pulled, and hands would not pick the dead cotton, so it was the children's job to pick the dead spots and oh,

how we did hate it! Changing times and machinery have just about done away with all of those disagreeable tasks that children used to have, including the down row behind the maize wagon, remember?

As all good things must come to an end, our ten day revival did come to an end Sunday night. The visiting preacher had to leave Friday night after church services to go to his own church for the weekend, but all those that heard his series of messages will not soon forget him. He is really on fire for the Lord, and if we were not revived it certainly was not his fault. Our pastor finished out the week and we always enjoy hearing him. The singing under

We cannot name all of our visitors we had through the week, but would like to recognize some of those that came several times. Mr. and Mrs. J. D. King did spend most of the week and attended, also his brother, Mr. and Mrs. A. N. King, from Hamlin, were faithful attenders. Mrs. A. N. King will be remembered as the former Bessie Hayes, who grew up in our community. We had some Sylvester folks with us, Tuesday night Mrs. W. B. Brown and Mrs. May Hunt, then Friday night their pastor, and our former pastor, Rev. and Mrs. Kenneth Leverett and the little ones, were present. We don't want to forget our dear friends that used to be with us in the years gone by, that came several times, Mmes. Jenkins, Herbst, Vaughn and Fletcher. Lots of visitors came once from the Hamlin church and of course was good to have "Chick" with us all week, coming with her husband, A. E. Hewitt, who led the singing.

Milton Crow Tells Of Hot Weather In Scotland—83 High

FTM2 Milton Crow, now in Scotland on the Sub Tender USS Simon Lake anchored at Holy Loch (Dunoon) on the Firth of Clyde, has written his parents, Mr. and Mrs. F. M. Crow, that the day he arrived there the temperature reached 83 degrees, the hottest day in seven years.

He said that factories are not air conditioned and had to close because of the extremely hot temperature. In Glasgow, the weatherman had predicted the mercury would reach 75 degrees.

Another Hamlin serviceman, Billy Acklin, who is assigned to a submarine in that vicinity, is on patrol and Crow hopes to see him when he anchors.

Role In Drama

Chris Head, son of Mr. and Mrs. Dudley Head, 18 S. W. Avenue C, had a role in the drama production "Engaged" presented in the Lubbock Christian College little theater August 4 and 5.

Head played the part of Major McGillicuddy, a rejected suitor to the heroine in the light comedy.

A 1966 graduate of Hamlin High School, Head is an education major at LCC.

We want to give special recognition to Mrs. Alma Holmes, who at the age of 82 and with a frail little body, did manage to make the biggest part of the services, Mrs. Henry, who isn't young any more, managed to make every service.

Visitors of the Fred Rosenbaums from Tuesday until Thursday, were Mr. Rosenbaum's niece, Mr. and Mrs. W. A. Reese, Gerald and Douglas, of Santa Barbara, Calif.

Friday being the last day Rev. Burke was present, the preachers took lunch with Mrs. Rosenbaum, Mr. and Mrs. Jesse Hagins, from Girard, came to visit with Rev. Burke arriving too late for church, so they also ate lunch with the Rosenbaums, then went home with the Babbs, to visit with them and Bro. Billy They are former members of Rev. Babb's when he pastored at Girard and also dear and special friends of Rev. Burke.

Mr. and Mrs. Marvin Johnson, Bruce and Barry, spent from Friday until Saturday with their parents, the M. S. Johnsons and Winston Grays, coming to church Sunday morning.

Visitors of the Flavi Holmes and "Granny" Holmes, Friday, were Mr. and Mrs. Clinton Holmes and children, of Plainview.

We are sorry to report that Mrs. Henry's brother, Mr. J. E. Boyd, of Snyder, is very seriously ill in the Snyder Hospital, after having been to several different hospitals. It seems that the time has come that nothing can be done for him. Our sympathy goes to the Henrys.

Mr. and Mrs. Elmer Joiner went to Stamford Sunday afternoon, and visited with the Jimmy Joiners family.

As has happened several times the past few years, a lost preacher showed up at our church Sunday morning. This one was looking for the Plainview Baptist Church and since this church is somewhere between Stamford and Haskell, we are just wondering if he found it in time to preach. One preacher boy came once and was sitting waiting for church to start, when our pastor came in and introduced himself, so he found he was in the wrong place, and he had to hurry to fill his pulpit, won't embarrass him by saying where since he was called to that church.

County Offices
Not Planning On
Closing Labor Day

Labor Day will not be a holiday for the Jones County courthouse, it was decided by members of the commissioners court at its August meeting.

However, some offices of the building may not open. Texas courts have held that the elected official has the final say as to whether or not he shall take holidays.

Grand jury for the September term of district court will not be called in until Tuesday, the day after Labor Day.

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 8, 1966.

HOUSE JOINT RESOLUTION NO. 13 proposing an amendment to Sections 2 and 4 of Article VI of the Constitution of the State of Texas, as so as to repeal the provision making payment of the poll tax a requirement for voting and so as to authorize the Legislature to provide for the registration of all voters.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 2 of Article VI of the Constitution of the State of Texas be amended, effective February 1, 1968, by deleting the following language:

"and provided further, that any voter who is subject to pay a poll tax under the laws of the State of Texas shall have paid said tax before offering to vote at any election in this State and hold a receipt showing that said poll tax was paid before the first day of February next preceding such election. Or if said voter shall have lost or misplaced said tax receipt, he or she, as the case may be, shall be entitled to vote upon making affidavit before any officer authorized to administer oaths that such tax receipt has been lost, such affidavit shall be in writing and left with the judge of the election. The husband may pay the poll tax of his wife and receive the receipt therefor. In like manner, the wife may pay the poll tax of her husband and receive the receipt therefor."

"provided, however, that before offering to vote at an election a voter shall have registered annually, but such requirement for registration shall not be considered a qualification of an elector within the meaning of the term 'qualified elector' as used in any other Article of this Constitution in respect to any matter except qualification and eligibility to vote at an election. Any legislation enacted in anticipation of the adoption of this Amendment shall not be invalid because of its anticipatory nature."

The text of this Section, as so amended, is shown below, with the deleted language marked through by a broken line and with the new

language underscored:

The husband may pay the poll tax of his wife and receive the receipt therefor. In like manner, the wife may pay the poll tax of her husband and receive the receipt therefor."

Section 3. If any other Amendment to Sections 2 or 4 of Article VI of the Constitution of the State of Texas, being for a different purpose, is adopted at an earlier election or at the same election, the adoption of this Amendment shall not be construed as nullifying any change made by such other Amendment.

Sec. 2. That Section 4 of Article VI of the Constitution of the State of Texas be amended by changing the word "may" to "shall" in the last clause thereof and by deleting the words "in all cities containing a population of ten thousand inhabitants or more."

The text of this Section, as so amended, is shown below, with the deleted language marked through by a broken line and with the new language underscored:
